

Divyansh Jain

(Software Developer)

Passionate and forward-thinking Computer Science graduate with a proven track record in developing innovative software solutions. During my internship at Prutor@IITK, I gained extensive experience in full-stack development, API design, and cloud technologies. Proficient in Python, Java, JavaScript, React, and Node.js, I excel in building robust and scalable applications. My strong analytical skills, creative problem-solving abilities, and dedication to continuous improvement make me a valuable team player. Driven by a love for technology and a commitment to excellence, I am eager to contribute to a dynamic team and create meaningful impact.

Work Experience

Software Developer Intern at Prutor@IITK

(June 2024 - Aug 2024)

To leverage my experience as a Software Developer at Prutor@IITK to contribute to innovative projects, utilizing my skills in software development to drive impactful solutions.

C++ Programmer Intern, CodSoft

(Aug 2023 - Sep 2023)

It was an incredible learning experience, and This internship has allowed me to expand my skills in C++ Programming. Developed and maintained C++ applications under the guidance of senior developers. Contributed to the design, implementation, and testing phases of projects.

- Current CGPA 7.2

(XII) - Major PCM

Laxmi Public School, New Delhi

Aug 2020 - Jun 2021

- Percentage 70.4%

Projects

Langar For Hunger

Developed a web application for a non-profit organization dedicated to providing free meals to those in need.

Implemented key features such as real-time donation tracking, user authentication, and responsive design. Utilized HTML, CSS, JavaScript, PHP, and MySQL to create a user-friendly and efficient platform. Enabled the organization to streamline food distribution, organize food drives, and host educational workshops, fostering a supportive community.
